

# Building Structures--Previously Repaired and Strengthened Buildings

Event/Date: \_\_\_\_\_ Investigator: \_\_\_\_\_

Short description of observation: \_\_\_\_\_ Date of observation: \_\_\_\_\_

## I. Location (please be as detailed as possible)

Number	Address		Additional Address (room, suite, floor, etc.)	City	State	Zip	Country
	Street	(indicate street, road, avenue, lane, etc.)					

Alternative description or name: \_\_\_\_\_

### Map Reference

Latitude	Longitude	Direction	Thomas Bros. Page No.
----------	-----------	-----------	-----------------------

## II. Building Behavior

What year was the retrofit performed?

Value: \_\_\_\_\_

What types of repair and/or strengthening are present?

- Parapet bracing
- Anchoring of cladding
- Connection strengthening
- Wall bracing
- Wall strengthening
- Diaphragm strengthening
- Diaphragm to wall anchoring
- Anchorage of structure to foundation
- Construction of new lateral load resisting elements
- Foundation strengthening
- Other \_\_\_\_\_

To what code was the building strengthened?

- Unknown
- UCBC
- Other \_\_\_\_\_

Did the repairs/retrofit enhance the buildings current earthquake performance?

- Unknown
- Yes
- No

Is there evidence of unrepaired or inadequately repaired elements?

- Unknown
- Yes
- No

Is there evidence of parapet removal?

- Unknown
- Yes
- No

Sketches/Comments:
