

2023-2024 EERI/FEMA NEHRP GRADUATE FELLOWSHIP

The **Earthquake Engineering Research Institute** is excited to announce **one available Graduate Fellowship** for the 2023-2024 academic year to support a full-time student in a discipline contributing to the science and practice of earthquake hazard mitigation. The one-year fellowship, funded by the Federal Emergency Management Agency (FEMA), is designed to foster the participation of capable individuals working toward goals and activities of the National Earthquake Hazards Reduction Program (NEHRP).

AWARD

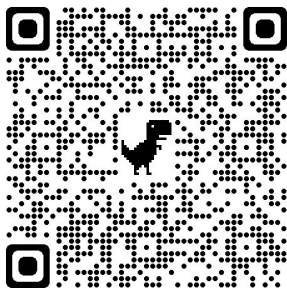

The EERI/FEMA NEHRP fellowship provides a stipend of \$12,000 that can be used for tuition, fees, research expenses and the required attendance and participation at the 2024 EERI Annual Meeting.

CRITERIA

This fellowship recognizes graduate students with strong promise to advance the field of earthquake risk mitigation. Students are evaluated based on graduate and undergraduate research experience and accomplishments, alignment of their work with the mission of EERI, academic excellence, leadership potential, extracurricular activities that contribute to reducing earthquake risks, and their ability to articulate their planned path forward in the field of earthquake risk reduction.

Applicants must be enrolled in a graduate degree program at an accredited U.S. college or university and must hold U.S. citizenship or permanent resident status. Applications must include an academic transcript, statement of educational & career goals, short resume, and 3 letters of support. Strong consideration will be given to candidates with active involvement in EERI.

APPLY HERE:

**NEW DEADLINE: MAY 17, 2023
AT 11:59PM PACIFIC TIME**
