The Earthquake Engineering Research Institute established *Earthquake Spectra* with the purpose of improving the practice of earthquake hazards mitigation, preparedness, and recovery. *Earthquake Spectra* is intended to serve the informational needs of the diverse professionals engaged in earthquake hazards reduction --- civil, geotechnical, mechanical and structural engineers; geologists, seismologists, and other earth scientists; architects and city planners; public officials; social scientists; and researchers. The Journal serves as the publication of record for development of earthquake engineering practice, earthquake codes and regulations, earthquake public policy, and earthquake investigation reports.

Earthquake Spectra is published quarterly in both printed and online editions in February, May, August, and November. *Subscriptions to Earthquake Spectra run January through December.*

Institutional subscriptions to *Earthquake Spectra* are available. The subscription rate includes online access to all issues going back to 1985, and an additional 2017 special issue on the 2015 Nepal Earthquake.

The Institutional subscription rate for 2017 is **\$600**.

You may opt in to receive a printed copy shipped via surface mail for the additional cost listed below:

\$60 – additional for print/mailing to a Domestic address.

\$100 – additional for print/mailing an International address.

Subscriptions must be prepaid. Payments for new or renewal subscriptions for the current calendar year will not be accepted after August 31st. The subscription would be entered for the following calendar year if payment is received after August 31st.

All issues are also available for purchase at <https://www.eeri.org/earthquake-spectra/>.

Visa/MasterCard/AmEx accepted. Make checks payable to EERI.

IMPORTANT: Please make a note of your EERI ID number as you must provide it when corresponding with us.
