

Activity report

EERI- UPS - UIOStuden Chapter

Of my consideration Receive a cordial greeting, at the same time wishing you success in the functions that you perform. Through this I would like to invite you to the program of activities carried out by the student chapter of the **Universidad Politécnica Salesiana - Ecuador**.

The student group of the **Universidad Politécnica Salesiana** was approved by the EERI Board of Directors on January 2, 2019.

In these 6 months we managed to work in 3 areas.

- 1.- Capacitacio
- 2.- Research
- 3.- Social

ADVISORY ACTIVITIES

Since creation of EERI Student Chapter, the main activities have been:

Coordinate logistical activities for the development of student-initiated events, such as conference cycles, competitions and community training

Incentivize in the professors of the Civil Engineering Career to participate in the seismology group from the research and academic área.

Manage the implementation and acquisition of specialized equipment and software to initiate research Works.

Support the recognition of the student group as a legalized group and positioned within the University Resolutions.

ACTIVITIES OF THE STUDENT CHAPTER

I implement strategies that support education on seismic inegnieri

Training was provided regarding seismic-resistant engineering and the development of soft skills at the country level.

Participated in internal chapter workshops

Promotion of the EERI group was generated from the Facebook page.

Which we describe in the following schedule of activities

Planning january – june 2019

Date	Place	Activity	Description	Achievements
January 17	UNIVERSIDAD POLITECNICA SALESIANA	Coferencias EERI-UPS- Student Chapter	Conferences on geotechnical, seismic and structural engineering	It was possible to have 11 speakers in the different areas and it was possible to have a public of 603 people in the conferences
January 17	UNIVERSIDAD POLITECNICA SALESIANA	Inauguration of the student chapter	Conferences on geotechnical, seismic	
February 20th	UNIVERSIDAD POLITECNICA SALESIANA	Trainings	Trainings on the structural area	All the members of the group were trained with the help of our advisers
May 10	UNIVERSIDAD POLITECNICA SALESIANA	Inductions to the Salesian groups	Risk management workshop	workshop to the Salesian members on care in buildings
May 16, 17th	UNIVERSIDAD POLITECNICA SALESIANA	Public prevention workshop	Exposures to the city on risk prevention	People were trained in risk prevention in two days and two different days

June 7th	UNIVERSIDAD POLITECNICA SALESIANA	Contest of bridges at scale Build bridges at scale	Build bridges at scale	Bridges were made to scale and its structural functionalities were verified, where the entire university community participated
June 12	UNIVERSIDAD POLITECNICA SALESIANA	Elaboration of activities July - December		

Our student organization is established by

- President
Deysi Marcela Chicaiza Molina
- Vice President
Jessenia Jacqueline Jacome Salguero
- Secretary
Britani Mendoza
- Treasurer
Luis Fernando Merchan Morales luis-
- Public Relations Chair
Paola Lisbeth Aguilar Zambrano
- Representative of the grader
Santiago Ramiero Changoluisa

Public prevention workshop

Public prevention workshop

Conclusions

All activities have strengthened us as a group, for the following months we made a new schedule of activities where we hope to participate more in EERI international event.

We hope to continue depending more on the topics. As a university we are acquiring earthquake simulator machines to improve our knowledge

ANNEXES

Planning august – december 2019

EERI - UPS					
SECCION	HORARIO	MATERIA	TEMA	DESCRIPCION	DOCENTE
CAPACITACION	13H00-14H0	ESTRUCTURAS	DINAMICA BASICA TEORICO	SISTEMAS DE 1º DE LIBERTAD	ING.NELSO
			DINAMICA BASICA PRACTICO		ING.BYRON
	06H00-17H00	ASU	REGREATIVO	CAMINATA AL ILALO	ING. GABY
	13H00-14H0	ESTRUCTURAS	DINAMICA ESTRUCTURAL TEORICO	SISTEMAS DE VAERIOS GRADOS LIBERTAD	ING.NELSO
			DINAMICA ESTRUCTURAL PRACTICO		ING.BYRON
			REUNIO	PRESENTACION DE PROYECTOS POR PARTE DE DOCENTES	TODOS LOS MIEMBROS
	9H00-13H00	SUELOS	DINAMICA DE SUELOS	PREREQUISITO SABER SUELOS 2	ING. FREDY
	14h00-16h00	ESTRUCTURAS	ROBOT		ING. BYRON
	14h00-16h00		POR CONFIRMAR	CAPACITACION DOCENTE	MIEMBROS
	10h00-13h00	SOCIAL	GESTION DE RIESGOS	SECRETARIA DE GYR	ARQ.DORIS
	10h00-13h00	SOCIAL	GIRA EN EMPRESAS		Santiago Changoluisa
INVESTIGACION	14h00-16h00		REUNION	INICIO DE PROYECTO
